Interpreting Comparisons

Mean comparisons report both statistical significance and effect size. Effect size indicates the practical importance of an observed difference. For EI comparisons, NSSE research has concluded that an effect size of about .1 may be considered small, .3 medium, and .5 large (Rocconi & Gonyea, 2015). Comparisons with an effect size of at least .3 in magnitude (before rounding) are highlighted in the Overview (p. 3).

EIs vary more among students within

How Engagement Indicators are Computed

NSSE 2017 Engagement Indicators

Overview

Wichita State University

Engagement Indicators: Overview

Engagement Indicators are summary measures based on sets of NSSE questions examining key dimensions of student engagement. The ten indicators are organized within four broad themes: Academic Challenge, Learning with Peers, Experiences with Faculty, and Campus Environment. The tables below compare average scores for students with those in your comparison groups.

Use the following key:

Your students' average was significantly higher ($p < .05$) with an effect size at least .3 in magnitude.

Your students' average was significantly higher ($p < .05$) with an effect size less than .3 in magnitude.

-- No significant difference.

Your students' average was significantly lower ($p < .05$) with an effect size less than .3 in magnitude.

Your students' average was significantly lower ($p < .05$) with an effect size at least .3 in magnitude.

NSSE 2017 Engagement Indicators

Academic Challenge

Wichita State University

Academic Challenge: First-year students

Challenging intellectual and creative work is central to student learning and intellectual quality. Colleges and universities promote student learning by challenging and supporting them to engage in various forms of deep learning. Four Engagement Indicators are part of this theme: *Higher-Order Learning, Reflective & Integrative Learning, Learning Strategies, and Quantitative Reasoning*. Below and on the next page are three views of your results alongside those of your comparison groups.

Mean Comparisons

Engagement Indicator	Wichita State Mean	Your first-year students compared with					
		WSU Peers		Carnegie Class		Large City, Public	
		Mean	Effect size	Mean	Effect size	Mean	Effect size
Higher-Order Learning	35.0	37.6**	-.21	37.9**	-.23	38.0*	-.23
Reflective & Integrative Learning	32.6	33.2	-.05	34.8*	-.19	35.4*	-.21
Learning Strategies	34.9	37.4**	-.19	37.7*	-.21	37.9	-.22
Quantitative Reasoning		*					-.08

Notes: Results weighted by institution-reported sex and enrollment status (and institution size for comparison groups). Effect size: Mean difference divided by pooled standard deviation.

Performance on Indicator Items

The table below displays how your students responded to each EI item, and the difference, in percentage points, between your students and those of your comparison group. Blue bars indicate how much higher your institution's percentage is from that of the comparison group. Dark red bars indicate how much lower your institution's percentage is from that of the comparison group.

Higher-Order Learning

Percentage responding "Very much" or "Quite a bit" about how much coursework emphasized...

Item	Wichita State %
4b. Applying facts, theories, or methods to practical problems or new situations	74
4c. Analyzing an idea, experience, or line of reasoning in depth by examining its parts	67
4d. Evaluating a point of view, decision, or information source	60
4e. Forming a new idea or understanding from various pieces of information	65
